It's the little things that citizens do. That's what will make the difference.
Our little thing is providing a good design that is sustainable.

## EPA TSCA Title VI Compliant

In efforts of constantly striving to improve the quality of our products, **CabTec** has made a commitment to ensure that all of our MDF and Plywood products are certified under Environmental Protection Agency's (EPA) Toxic Substance Contract Act (TSCA) Title VI regulations.

EPA TSCA Title VI Compliant was established to regulate the chemical emissions produced by composite wood products. This regulation reduces the exposure to formaldehyde in the air indoors.

## FSC Certified

The Forest Stewardship Council (FSC), is a non-profit organization that ensures that forestry is practiced in an environmentally responsible manner.

**CabTec** is committed to supporting sustainable products and doing our part in contributing to the environment.

# Finest Finishes

We believe in selecting the finest raw materials, ensuring consistent quality and uniformity of appearance.

At **CabTec**, when it comes to our cabinet finishes, we pride ourselves by using the best technology and workmanship to ensure high quality cabinetry. Our finishes consist of stained and painted options in various colors and styles.

## Our Staining Process

Our stained cabinet doors and face frames are made using the finest quality solid birch wood.

We begin by using a combination of automatic sanding machines and hand detailing to ensure a smooth finish.

Application of equalizers and toners are used to balance the color of the wood and ensure a uniform color throughout.

Automatic spraying machines ensures the stain is embedded deep into the cabinet, which highlights the natural wood grain.

All stained surfaces are then hand-rubbed and wiped down to remove excess stain. Then left to air dry.

Once the stain has dried, a wood sealer is applied to provide even protection.

We then sand the surfaces to provide a smooth and consistent finish.

Our final protective coat is applied to maximize resistance to scuffing, moisture, fading and most household chemicals.

The cabinets are then placed through a color consistency examination where additional touch-ups are made where needed.

## Our Painting Process

Our painted cabinets doors are made with high desity fiberboard (HDF)- painted faceframes are made with
the finest quality solid birch wood.

We begin by using using a combination of automatic sanding machines and hand detailing to ensure a smooth finish.

Clear primer is applied and an automatic sanding machine is used to ensure an even and smooth surface.

The first base coat is the applied and then dried using a
specialized drying machine.

The base coat is then sanded and vaccummed to remove
any excess dust.

We then apply our second base coat and then dried using a specialized drying machine.

We then sand the surfaces until smooth and consistent.

Our final top coat is applied to maximize resistance to scuffing, moisture, fading and most household chemicals.

The cabinets are then inspected and additional touch-ups
are made where needed.

# Maintenance and Care

## General Information:

- Keep all cabinet surfaces dry at all times.
- Cabinetry surfaces should be dried immediately with a soft, microfiber cloth after cleaning.
- As with all solid wood products; drastic changes in temperature or humitity can be harmful to the cabinet finishes and over-all structure.

## Basic Cleaning:

- After installation wipe the interior and exterior of the cabinets with a soft damp cloth and dry immediately with another clean, soft cloth.
- For routine cleaning; use a soft, clean cloth dampened with warm water—If the water alone does not clean cabinets completely, mix a mild dishwasher soap with the water.
- Wipe up food spills and water spots promptly with a damp cloth or sponge and dry the surface immediately.
- For best results—use a blotting motion rather than a wiping motion to remove the substance.

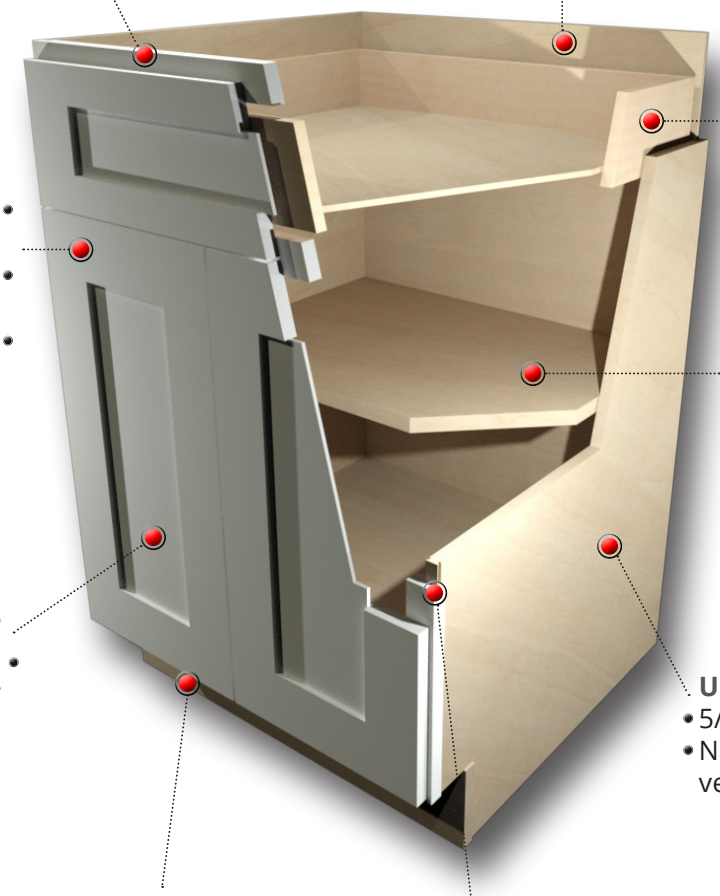

## Cleaning of Glass Door Inserts:

- Use an ammonia-free glass cleaner with a soft, clean microfiber cloth.
- Spray a glass cleaner on a clean microfiber cloth or paper towel.
- Avoid spraying the glass cleaner directly on the glass—this is to prevent glass cleaner running into the joints of the cabinets.

## Basic Care & Things to Avoid:

- These products and ingredients can damage the cabinetry. Please avoid use of the following:
- Scouring Pads
- Steel Wool
- Ammonia
- Nail Polish Remover
- Paint Thinners
- Bleach
- Never leave a cloth saturated with cleaner or water on any cabinet surfaces.
- Avoid using an excessively damp cloth over exterior and interior of cabinetry.
- When using small kitchen appliances that produce heat and/or steam always pull them away from the underside of cabinetry to prevent damage to the cabinets.
- Always remember to turn on the ventilation while cooking.

# Warranty

## 5 Year Cabinet Warranty

Cab-Tec warrants to the original consumer purchaser that cabinetry, door hinges, and drawer glides will be free from defects in material and workmanship under normal use and service for a period of Five (5) years from purchase date (Proof of Purchase is required). This warranty is not transferable and only applicable to product used for residential purposes. Representatives of this cabinet line do not have the authority to change or enlarge this warranty.

This warranty does not cover normal wear and tear, damage or defects caused by accidents, misuse, abuse, or lack of necessary maintenance; nor does it cover alteration, modification, improper installation, improper handling / storage, environmental conditions, nor any labor expenses.

Vendor, at our option, may elect to repair or replace with a functionally equivalent product any product covered by this warranty. Some replacement parts are subject to availability and may differ from original parts received. Return of defective product may be required for a replacement to be issued. Repair parts or replacement parts are at the expense of the vendor, but customer shall bear all other expenses. These expenses may include, but are not limited to, cost of removal and re-installation of product, labor expenses, etc.

Just as no two trees are alike, no two pieces of wood are alike. The variation in color and grain pattern in wood adds to its natural beauty and is not considered an imperfection. Environmental factors, including but not limited to artificial / natural light, moisture, cleaners, smoke, etc., may cause the darkening or mellowing of a cabinet over time. This is a natural process and can be expected. This warranty does not cover the natural aging or darkening / mellowing of wood color, the inherent growth characteristics of, or variation in wood.

Some of the cabinet lines feature a glazed finish that accentuates the door and drawer front profiles. This glaze is hand-applied over a stain or paint and may, due to the nature of application, consist of random drips, runs, etc. As glazing is a hand-applied process there will be variations in color and appearance from door to door and cabinet to cabinet. This is not considered a defect and is considered normal with hand applied finishes.

It is the nature of wood to expand and contract to varying degrees depending on climate conditions. As a result, cabinet lines with painted surfaces may show fractures in the paint at joints. This is normal and is not considered a defect.

This warranty is valid only in the United States of America and is not transferable. All implied warranties are limited in duration to the shorter of the period provided by law or the period of this warranty. To the extent permitted by law, this warranty excludes special, incidental, or consequential damages. Some states do not allow the exclusion or limitations of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights; you may have other rights which vary from state to state.

To exercise this warranty, please contact the supplier from whom you purchased the product. Report, in writing, all defects claimed and include proof of purchase documentation.
